Family Emergency Plan

Prepare *Draw a floor plan of your home, be sure to include all windows and doors and label sleeping areas. Plan two escape routes from every room and mark your safe family meeting spots for each type of emergency. Post the drawings in each child's bedroom.*

Practice *your escape plan at least twice a year at different times of the day. Conduct fire drills while waking up to a smoke alarm, crawl low and meet outside. Also practice other emergency and evacuation drills, for example a tornado drill.*

Make sure everyone knows how to call 9-1-1.
