Never Text While Driving Safe Driver Pledge

In recognition of the deadly consequences caused by driver distractions, and the specific dangers involved with texting while driving,

I hereby pledge before my family and friends that:

- I understand that texting while driving increases crash risk by 23 times.

- I promise to NEVER put myself, my passengers - or other drivers and their passengers - in danger by texting while driving.

- I promise to apply patience and good judgment and ALWAYS find a safe place to communicate with friends and family.

- I pledge that road safety will always be my FIRST priority while I am in the driver's seat and I will encourage my friends and family to adopt the same safe practices.
